## DIY Pop-Up Card

Print out the Great Big Hug Pop-Up Card Template Pack. Contained in the document you will find 4 different templates: male stick figure hug, female stick figure hug, use your own photo hug, or a blank hug card template.

### Supplies

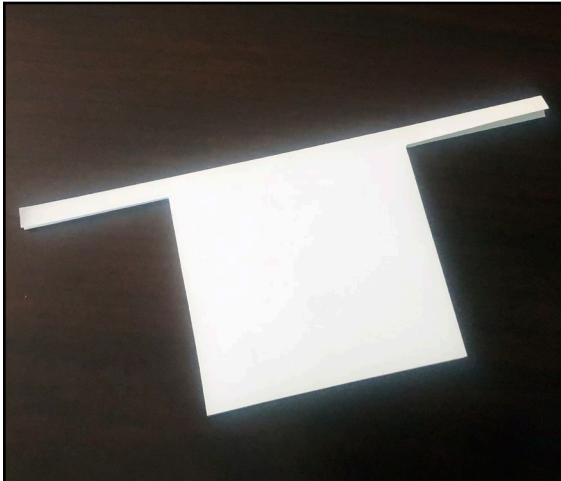

- Great Big Hug Pop-Up Card Template
- White Computer Paper/Printer
- Colored Card Stock or Construction Paper
- Scissors
- Glue Stick, School Glue, or Tape
- Optional – Colored Pencils, Stickers, Personal Photo, Other Decorations

## Step by Step Directions

1. Print out the card template that you would like to work on. Cut out the card following along the dotted lines. Be sure not to accidentally cut off the arms. This will act as the “inner” piece to your card.

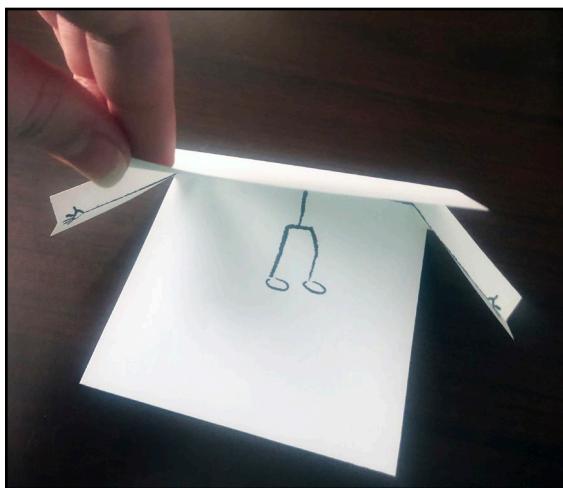

2. Fold the card in half with the “hug” on the inside. Be sure to create the fold on both arms as well as the card body. Then fold the card inside out.

3. Fold the edge of each arm down to match up with the edge of the card body. This will create a diagonal fold in each of the upper corners. Use your fingers or a popsicle stick to create a firm crease.

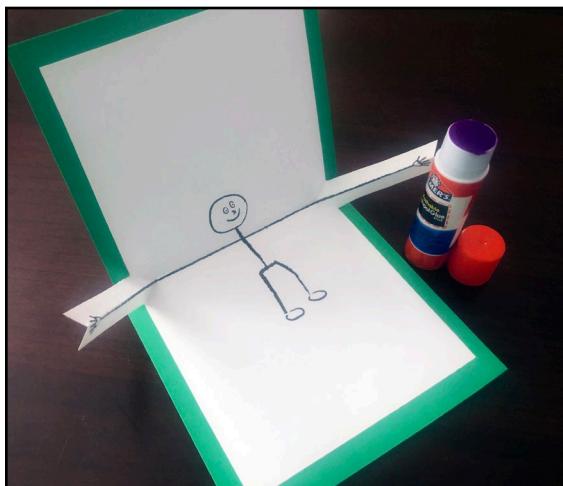

## Step by Step Directions (continued)

4. Fold the arms back out so your card creates a “T” shape. Then fold the card in half so the “hug” is on the inside. As you fold the card in half, the arms will fold themselves into the card. Now when the card is opened, the arms will pop out.

5. To create the “outer” card use card stock or construction paper. Fold your card stock in half and cut out a square card that is slightly larger than the inner piece.

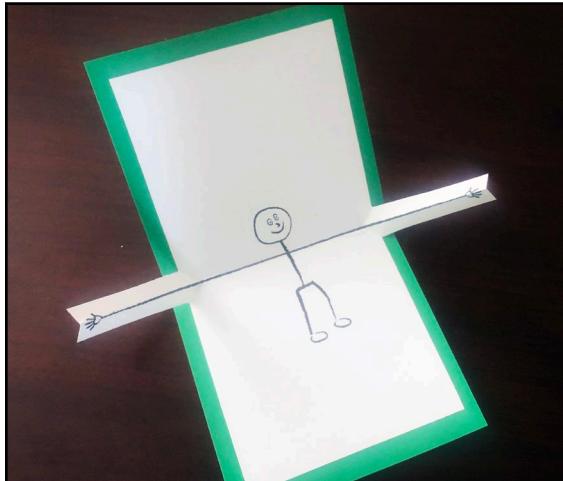

6. Use a glue stick or tape to attach the inner card to the inside of the outer card. Apply your adhesive to the outside of the “hug” card but be sure not to glue the diagonal folds that allow for the arms to pop. Allow the glue to dry.

## Step by Step Directions (continued)

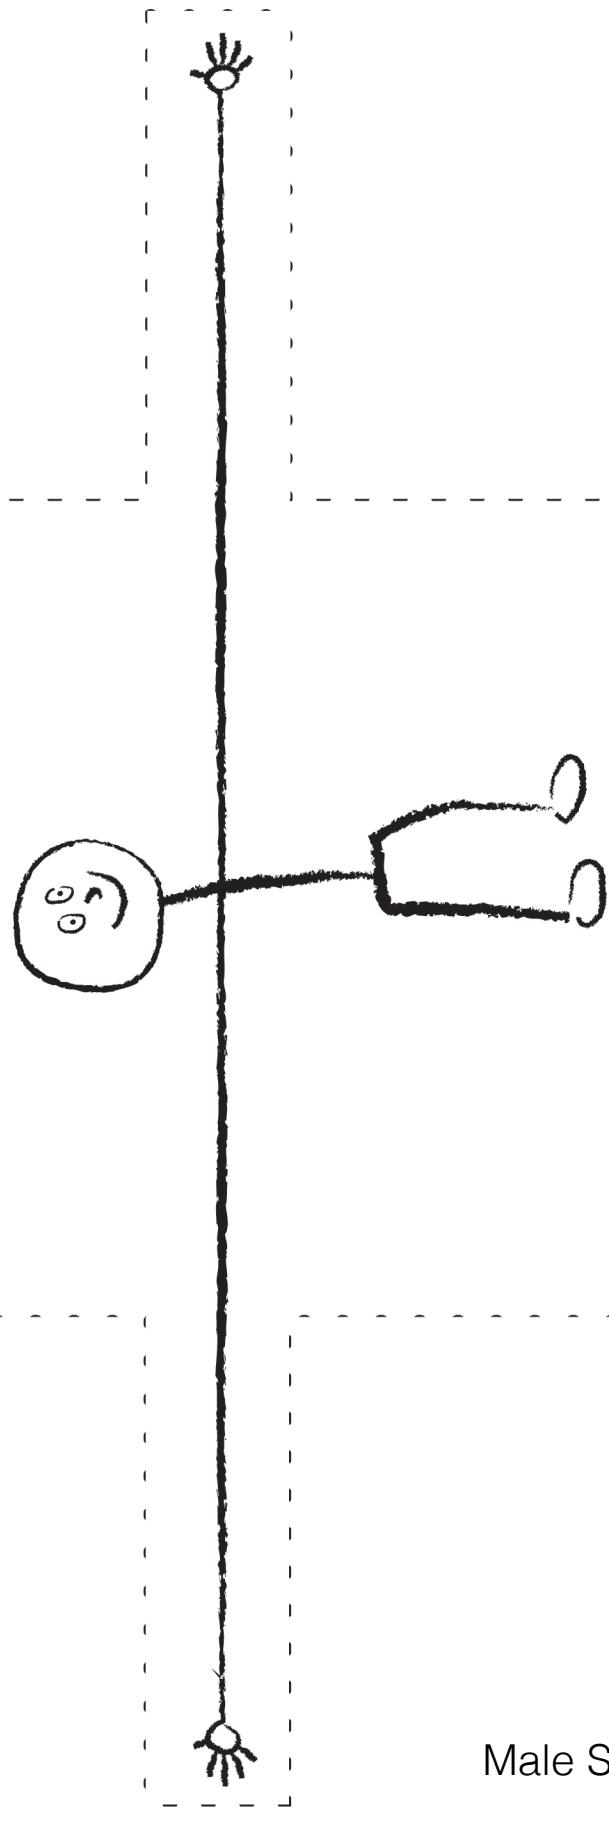

7. Use colored pencils, stickers, or any other supplies you have to decorate the front of your card.

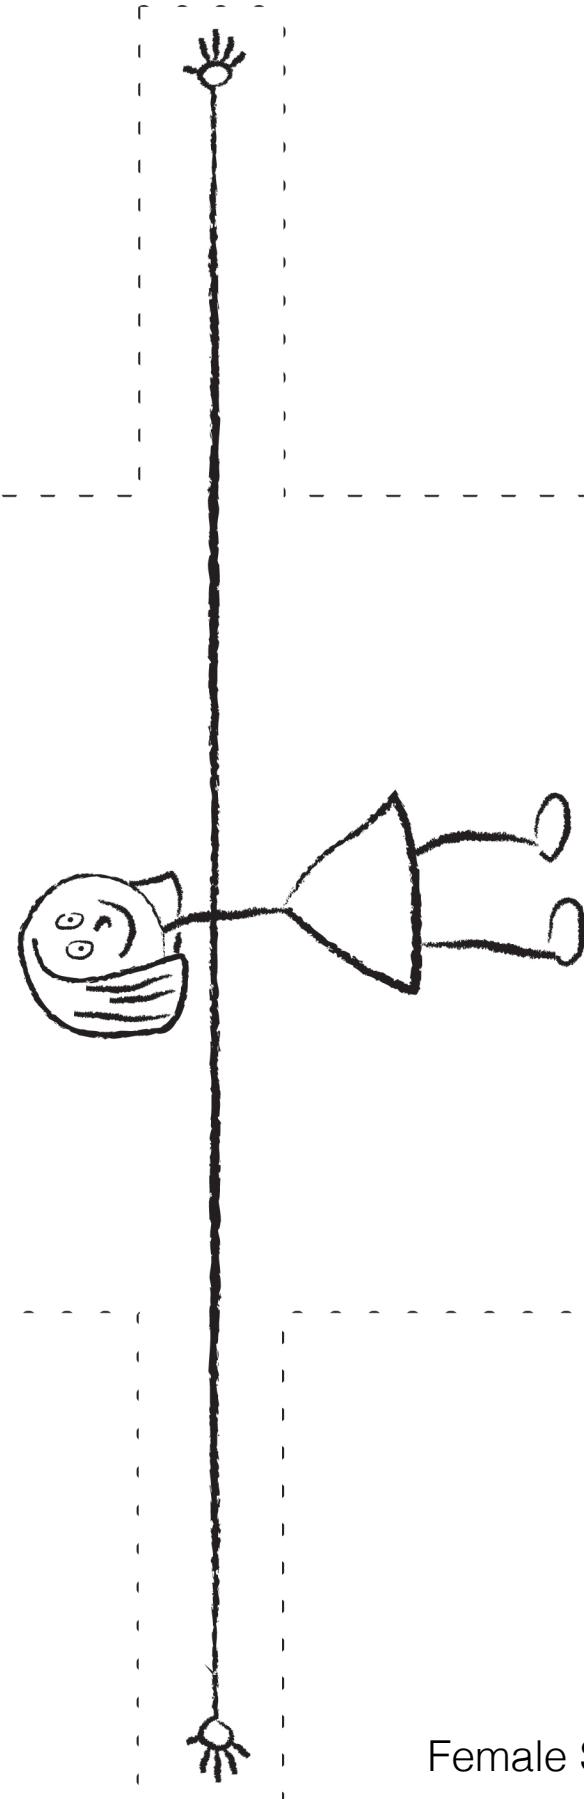

8. The final step is to deliver the Great Big Hugs to your family and friends!
